

DIVYANSH SHUKLA

Python Developer | Data Analyst

Divyanshshukla23012004@gmail.com | +91 9250795163 | Noida, India | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Detail-oriented and analytically driven fresher with a B.Sc. degree and a Post-Graduate Certification in Data Science & Analytics. Proficient in Python, SQL, Machine Learning, and data visualization tools (Power BI, Tableau). Hands-on experience preparing stock and financial analyses, building Python backend systems, developing deep learning models, and creating REST APIs with Django/Flask. Eager to contribute to data-driven decision-making and scalable Python solutions in a fast-paced environment.

TECHNICAL SKILLS

Programming: Python (Primary), SQL

Python Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, FastAPI

Web Frameworks: Django, Flask

Machine Learning: Supervised & Unsupervised Learning, CNN, NLP, Feature Engineering, Model Evaluation

Databases: MySQL, SQL (Joins, Aggregations, Subqueries, Indexing)

Data Visualization: Power BI (DAX, Data Modeling), Tableau, Matplotlib, Seaborn

Tools & Platforms: Jupyter Notebook, VS Code, Git, GitHub, Postman, REST APIs

Other Skills: Advanced Excel (Pivot Tables, VLOOKUP, Conditional Formatting)

EXPERIENCE

Data Analyst Intern — Bluestock Fintech

Apr 2026 – Jun 2026

Internship | 3 Months

- Prepared detailed stock and equity market analyses using Python (Pandas, NumPy) to support investment research, trend identification, and reporting for the team.
- Contributed to a Python backend project, developing and maintaining modules for data ingestion, processing, and API integration.
- Built and tested REST API endpoints using Flask/Django to serve financial and stock data to internal applications.
- Automated collection and cleaning of market data from external sources, improving accuracy and turnaround time of analytical reports.
- Created visual summaries and dashboards of stock performance metrics to support data-driven decision-making.
- Collaborated with cross-functional teams to translate business and market research requirements into backend features and analytical outputs.

Data Analyst Intern — Convergence Pvt Ltd

23 Jan 2025 – 14 Apr 2026

Internship | 1 Year

- Analyzed large datasets using Python (Pandas, NumPy) and SQL to extract actionable business insights and support data-driven decision-making.
- Designed and maintained interactive dashboards and reports using Power BI and Tableau to visualize KPIs for stakeholders.
- Performed data cleaning, transformation, and preprocessing to ensure data quality and accuracy for analytical pipelines.
- Collaborated with cross-functional teams to identify data requirements, translate business problems into analytical solutions, and present findings to management.

PROJECTS

Resume Screening using CNN and Flask —

2026

- Built a deep learning pipeline using a custom Convolutional Neural Network (CNN) with text embedding layers to classify and rank resumes based on job description relevance.
- Implemented robust NLP preprocessing (tokenization, stop-word removal, padding) and fairness checks to ensure ethical, bias-free automated screening.

- Deployed the model as a REST API using Flask, enabling seamless integration with HR recruitment platforms.
- Achieved 95% accuracy on labeled resume datasets, significantly reducing manual shortlisting effort.
- Tech Stack: Python, Keras/TensorFlow, Flask, Pandas, NumPy, Scikit-learn

Cryptocurrency Market Dashboard (Power BI) —

2025

- Designed an interactive Power BI dashboard to track and analyze cryptocurrency prices, trading volumes, and market trends across multiple coins.
- Built DAX measures and a structured data model to calculate KPIs such as price change %, volatility, and moving averages.
- Cleaned and transformed raw market data using Power Query to ensure accuracy and consistency for reporting.
- Created drill-down visuals and filters enabling users to analyze performance by coin, time period, and market segment.
- Tech Stack: Power BI, DAX, Power Query, Excel

EDUCATION

Master of Computer Applications (MCA) — IILM University

2025 – 2027

Pursuing

Post-Graduate Program in Data Science & Analytics — Imarticus Learning

Nov 2024 – Jul 2025

- Coursework: Machine Learning, Deep Learning, SQL, Python for Data Science, Power BI, Tableau, Statistics & Probability

Bachelor of Science (B.Sc.) — CSJMU University, Kanpur, Uttar Pradesh, India

2021 – 2024

CERTIFICATIONS

- Post-Graduate Program in Data Science & Analytics — Imarticus Learning (Nov 2024 – Jul 2025)
- UI/UX Designer — HCL GUVI (Issued Apr 2026) | Credential ID: 6779A8fv8555Q1Eh47
- Naukri Resdex Training — Naukri.com, Certificate of Participation (14 Jul 2026)
- HackO'Clock 2.0 — Unstop, organised by IILM Graduate School of Management, Greater Noida (Certificate of Participation)
- Internship Common Aptitude Test (ICAT) — Certificate of Participation (9 Mar 2026) | Certificate No. CIT-P-3074463

SOFT SKILLS

Effective Communication | Teamwork & Collaboration | Analytical Problem Solving | Strong Work Ethic | Time Management
